Profile

Documentation Engineer, focused on delivering comprehensive technical writing services. (Specialist)

Experience

Technical Writer | GitLab | Remote, USA (2026)

- Authored and maintained technical documentation for internal developer tools using Markdown and Docusaurus, reducing engineer onboarding time by 21%.
- Utilized a docs-as-code workflow, managing content via Git and navigating the GitLab merge request (MR) review process to publish updates.
- Collaborated asynchronously across global time zones with product managers, engineers, and senior writers to document complex features.
- Audited and refactored documentation pathways, reducing broken links and formatting errors by 10% to improve overall information architecture.
- Reviewed and edited community-contributed documentation, ensuring all external merge requests strictly adhered to the GitLab Documentation Style Guide.
